Subject:

Good evening and my apologies for messaging so late. I am just letting you all know that I will not be attending another department head meeting because I do not go to them to be cursed at or talked down to by anyone, let alone someone who is not my direct supervisor. After today's emails with David, I am not subjecting myself to anymore of his disrespect and unprofessional actions. I feel that he is now trying to target me and make me look bad in front of the eyes of the County and the Board. As he said in the department head meeting, the Village Clerk and Treasurer are hired independently by the Board and he has nothing to do with that. It was a shame the way he spoke to everyone in that meeting last week and it started with me last Saturday. He told everyone it's his way or the highway and a mountain of other things that should have not been said by anyone in a supervisory position.
